

What Does PrintBoss Do for YOU?

1 ONE CHECK STOCK FOR MULTIPLE BANK ACCOUNTS

Do you print checks from more than one bank account? Stop trading out check stock. PrintBoss can print checks from all of your bank accounts to one, secure, blank check stock, with no extra clicks. **Use PrintBoss.** **Use one check stock.**

2 SECURE CHECK STORAGE WITHOUT THE LOCKS

Never lock up unused check stock again. With blank check stock your bank information does not appear on the check until you process a check run. So throw out the lock and key...and while you're at it, toss those file cabinets as well. **One check stock, with more security and less storage.**

3 SAVE MONEY WITH BLANK CHECK STOCK

Save over 80% on the cost of preprinted check stock, when you buy blank check stock. Get 1,000 sheets of blank stock for \$60, while you'd pay over \$300 for some preprinted checks. So you buy one stock for all your accounts AND you pay a fraction of the price. You're saving money any way you look at it!

SAVE 80%

4 ADD LOGOs & SIGNATURES

Customize your check with a company logo and signature. Even add signing rules to automatically add signatures based on dollar amount or account.
